The world of writing - with the internet as one's target market - is an extremely interesting labor. Publishers can be totally dismissed, and an author can embark on efforts to promote his/her own work at little cost. *The effort* is high, but *the cost* is low. Currently, my entire enterprise is costing me about a thousand dollars per year. And I could do it for less.

This Website has all my Ebooks and Articles on it. Also, I do have a **tracking service** (Sitemeter) that tells me quite a lot about my visitors. It tells me:

- \* *What time* he/she clicked on - and the *entry page* and *exit page* - as well as *total page views*.
- \* Most of the time, it tells me *where my visitor has come from* - Country and City, Province, etc.
- \* Most of the time it tells me *how my visitor found my site*. I can click on "*Referral*" and go back and see where the visit originated from. This is extremely helpful. For example, if he/she came through a search engine, I can see *the phrase that was keyed in* - and see where my site was in the list. This helps me to know which keywords are working for me - and what I need to work on so as to improve my search engine rankings.

But there is one more feature that is very important - and exciting! My tracking service tells me if my visitor **Out Clicked** on one of my **PDF files**! That means the visitor left my Website with that particular document opened on his /her computer screen. There are several important points about this.

I have been told that several scenarios *could have* then occurred with this opened PDF file. But, there is no way to know which one actually did.

1. It could simply be **clicked off of**. That is not probable, as he/she wanted to at least look at the document - and read *something* of it.
2. It could be **saved on that person's computer** - and opened and read any time - just like any other saved file.
3. It could be **printed out on the spot** - or saved and printed out later - like any other saved file.
4. It could also be **sent as an attachment** - to whomever my visitor would so choose.
5. If printed out, **the potential uses are numerous**. Maybe Group Bible Studies, or evangelistic labors- or who knows what else!

Any of these scenarios are fine with me. Even if my credits are lost, God knows who is to be credited with what - I just want the material out. This is where you (hopefully) enter the picture. I hope God burdens your heart to really pray for particulars here. My prayer efforts are so spotty and there can never be too much prayer muscle behind this. While I do think God has directed me to write what I have done - I also know I am way too limited to pray this through! I am hoping that individual Christians will become familiar my work - and take on the parts they especially like - as part of *their* ministry before God.

But one other point. And this is very encouraging to me and tremendously exciting. These "Out Clicks" are not the whole story! A visitor could enter on the Homepage, download every Ebook and Article and then exit from the Homepage - and I would never know he/she did all that. My tracking site would say, "1 page view," and the time would say, "0:00." The clock does not start until the visitor goes **to a second page** (there are a few exceptions to this - which I don't really understand yet). The only way I will ever know if a visitor has downloaded all or part of these documents - is if that visitor **contacts me!**

{P.S. I just received confirmation of this. A fellow from Michigan contacted me via email about "No Tithe for the Christian." He sent me his phone number and in the midst of our conversation, he informed me he had downloaded all of my material and was reading them one by one!}

This is tremendous. I believe there are some individuals praying about this particular Gospel Presentation method. You know who you are - and I can't wait to see God reward you for your labor.

If you know of other sites that can handle a pdf file of this size (489 KB) - let me know.

But, ... there is even more to report to you. There are *hundreds* of **Article Websites** on the Internet. They will publish an author's article(s) **for free** - and those Articles are then freely available to anyone going on those sites. The contributing author receives "One-Way" links in return. Those links help the author achieve higher rankings in the various search engines - thus more traffic *to the author's Website!* As of this writing, I have submitted Articles to over 150 of these article sites.

Website promotion is a lot of work. But, I am learning. If you know some other things that you think I should know about, just email me at [robincalamaio@yahoo.com](mailto:robincalamaio@yahoo.com).
